Title of Thesis: Monitoring of antimigrenic drugs prescription in VoZP České Budějovice in 1999-2005

The aim of this thesis was to monitor the treatment of patients suffering from migraine. Theoretical part deals with migraine, its pathogenesis, classification, and current therapeutic options. In Experimental part, statistical evaluation of the data collected in VoZP Health Insurance Company in České Budějovice between 1999-2005 is provided (e.g. influence of age or gender).
