

Abstract

The evangelization potential of the School of Life and evangelization Jeunesse-Lumière in the light of proclamations and teaching of the pope Francis

By this bachelor thesis, I would like to bring the French School of Life and Evangelization Jeunesse-Lumière closer to the Czech catholic public and to introduce it as a very beneficial evangelistic-formative initiative helping to deepen young people's personal faith and as a novel way to spread the gospel of Christ in the present society. I would like to approach the work and activity of the School JL in the light of teaching and proclamations of the present pope Francis. In the last part of the thesis I will mention the performance the Wounded Shepherd as a concrete example of an activity of the school graduates and their friends in our country.
