

Svátostná teologie Jakoubka ze Stříbra a její liturgická recepcie

**The Sacramental Theology of Jakoubek of Stříbro and Its
Liturgical Reception**

Mgr. Pavel Kolář, M.T.S.

The studies in this dissertation deal with two mutually interrelated topics and almost have the character of two case studies. Their relation one to the other might best be expressed by the general rule *lex orandi - lex credendi*. Following the initial general introduction, the first two chapters (2. *Ordo missae* in Three Utraquist Manuscripts and 3. A Comparison of the Rite of the Preparation of Gifts and Minor Canon) are dedicated to an analysis of three Utraquist liturgical manuscripts and are specifically concerned with their *ordo missae* and *canon minor*. All three manuscripts are dated to the sixteenth century - a more precise dating is still an unresolved question.
