

I describe smoking among children in my work. At first I focused the children's smoking in sedlčansko, that is a place where me and my family live. There are history of smoking and tabaco, tabaco area, types of tabaco products and smoking generally and the cigarette tabaco are described in the text. I mean kind of dependence on tabaco models and pronations for use tabaco models too. I wrote also about negatives and tabaco's influence to the human healthy in my work. The pasive smoking and its deffect to the human healthy is ment there too. There is the questionnaire in the practical part. This questionnaire is for young people around Sedlčany town.
