Mentor's comments both on the thesis and the student's approach:

The student chose a topic from the offer of diploma theses at the Department of Biological and Medical Sciences. After several check-ups with the mentor, she learned to quote correctly and to write MT. She worked independently, trying to process the search according to the agreed requirements. She submitted the work in advance than required. Generally, I evaluate the cooperation as positive.

**Evaluation of Master's thesis: excellent**

**Recommendations for the thesis defense: recommended**
