Joint Dissertation Review

Name of the student:	Anca-Ştefana Mărginean
Title of the thesis:	Health Security of Refugees and Asylum Seekers during COVID-19: The Role of Cities
Reviewer:	Ricard Zapata Barrero

1. KNOWLEDGE AND CONNECTION TO THE FIELD

(relevance of the research question, research objective, literature review):

Anca has managed and justify a timely RQ, to develop research objectives and overviewed literature on the local turn in migration studies and health security and Covid/irregulars and refugees, and identified a gap in a outstanding way.

2. ANALYSIS

(methodology, argument, theoretical backing, appropriate work with sources):

She has taken a comparative perspective with three urban regimes (Bristol, Frankfurt and Timișoara) and followed narrative policy analysis in the collection data and analysis. The ambition to take three cities has been really very well performed identifying similarities and differences and directly linked to her hypothesis: that MLG impacts the ways health security has been assured to irregulars and refugees' migrants.

3. CONCLUSIONS

(persuasiveness, link between data and conclusions, achievement of research objectives):

Anca has a potential for being researcher. She has capacities to plan a research design, identify gaps in a given debate and formulate initial RQ and select an appropriate methodology.

4. FORMAL ASPECTS AND LANGUAGE

(appropriate language, adherence to academic standards, citation style, layout):

She has an exceptional capacity to synthesis. She knows how to follow guidelines for editing and quoting in a professional way.

5. SUMMARY ASSESSMENT

(strong and weak point of the dissertation, other issues)

Anca has managed to articulate a very good Master Thesis. She has a strong capacity for being good researcher. At this point I really do not know what her weak points are since she has even managed her own agenda and meetings with me in an exceptional way. She has managed herself to identify her limits in the conclusions and I agree with them
