

Abstract

The bachelor's thesis "Hora Matky Boží" deals with the Marian pilgrimage site near the town of Králíky. In addition to the Holy Hut, which was not built, the Holy Steps and the Jerusalem Temple are symbolically commemorated here. The initiator of the pilgrimage area conceived in this way was Tobiáš Jan Becker, Bishop of Hradec Králové. The work will focus on the history and significance of individual objects in terms of historical, art-historical, but also symbolic. The Mountain of the Mother of God will be treated as a "sacrum locum", reminiscent of the Holy Land from which came objects of this work.
