

## DIPLOMA THESIS OPPONENT'S REFERENCE

Study program: APPLIED PHYSIOTHERAPY

Opponent's name:	Mgr. Ilona Kučerová
Author's name:	Ekaterina Trashenko
Supervisor's name:	Doc. PaedDr. Dagmar Pavlů, CSc
Consultant's name:	

The title of the diploma thesis:

The effectiveness of phasiotherapeutic procedures on patients diagnosed with COVID-19

The aim of the diploma thesis:

To assess the effectiveness of physiotherapeutic modalities on pulmonary function, physical function, and psychosocial effect of patients diagnosed with COVID - 19

1. Scope:

number of thesis / text pages	74/58			
number of used sources - English / foreign language	121/0			
others	tables	fig./photos	graphs	supplements
	99	1	0	0

2. Formal and language level of the thesis:

	excellent	very good	good	unsatisfactory
choice and definition of the topic, originality	x			
fulfillment degree of the thesis goal	x			
thesis structure, logic	x			
work with literature, use of citation standard	x			
work editing (text, graphs, pictures, tables)		x		
level of the text style	x			

3. Evaluating criteria of the thesis's theoretical part:

	excellent	very good	good	unsatisfactory
analysis and interpretation of literary review	x			
application of bibliography results to connect to the experimental part	x			

4. Evaluating criteria of the thesis's special part:

	degree of evaluation			
	excellent	very good	good	unsatisfactory
hypotheses - relevance and quality of their definition	x			
research set - adequacy of selection	x			
methodology - used evaluation methods and their quality	x			
results - presentation and interpretation	x			
statistical processing and data analysis	x			
discussion - interpretation of results in relation to current knowledge		x		
conclusion - self-evaluation level of the thesis	x			

4. Usefulness of the thesis results in practice:

above-average	average	below-average
---------------	---------	---------------

5. Additional commentary and evaluation, questions for the defense:

The diploma thesis, which deals with a very current topic - covid from the point of view of physiotherapy. Theoretical background chapter is written on twenty pages. In chapter 5, the student clearly describes the results she reached through a well-conducted review. On page 20 table number 4 is not illigible. question : Which metod of physiotherapy would you use for patients with (after) COVID -19?

**6. Statement of the opponent:**

I declare that all referenced sources are properly cited or paraphrased in the thesis.

**7. Recommendation for the defense:**

yes	yes with reservations	no
-----	-----------------------	----

**8. Proposed classification level:**

*excellent*
