Datum obhajoby: 26.05.2023 **Místo obhajoby:** Praha

Termín: řádný

Průběh obhajoby: A student presented her thesis. Subsequently, the thesis supervisor informed the committee about her evaluation and the opinion of the opponent was read in full. The student then responded to comments and answered questions recorded in the evaluations. In the public discussion that followed, the following questions were asked:

Novak - How long after the disease were the patients committed to the research?

Pavlou - See the testimonial, Why did you decide on this topic?

Šorfová - Was the care in the acute stage of the disease also evaluated? What was the age of the patients?

In closed discussion, the committee evaluated the student's performance, ability to present, discuss the results of the work presented. The defense was conducted in English. The committee concludes the defense with an overall excellent result.
