**Course of defence:** [in person] The student presented the thesis defence according to the text's structure, the methodology's challenges, the models introduced for the data analysis, the outcomes of the subsidies in research development, and the body of literature consulted.

CU Committee: Dr Baxa wants the student to elaborate on how the conclusion was reached.  
The student carries on the defence addressing the criticisms from the reviewers. He follows up with the applied model, its origin and how it works with the selected data. The student deepens into the calculation methods to defend how the theoretical model works.  
CU Committee: Comments and remarks from Dr Tesař and Dr Baxa focus on the theoretical model's quantitative implications.  
The student elaborates on his defence, giving conceptual details at a given specific scenario but mentioning his theoretical approach.  
CU Committee: Dr Baxa concludes by highlighting the empirical value of the model in reality. No further questions.
