

Abstract

The aim of the bachelor's thesis is to find out whether primary school teachers use the partnership approach in their lessons and what is their opinion about it based on their participation in the SI Třída project of the Scout Institute in Prague. The theoretical part of the bachelor thesis is devoted to defining the terms, defining the partnership approach itself and describing its principles and strategies. Furthermore, the bachelor thesis deals with the Scout educational method and the description of the SI Třída project. In the empirical part, the opinions of teachers who participated in this project with their class last year will be evaluated.

Keywords: Partnership approach, primary school teachers scouting, scout method of raising children, scout institute in Prague, primary school.
