Course of defence: Defence: Reviewers were proposing E/50, E/50 and F/43. The basic problems were: rather outdated literature, theory just basically not well explained and translated to empirical work, some conclusions were not based on very strong arguments. Still, the concept is visible in the text, referencing, sometimes chaotic, shows dependence on sources. The paper is at the lowest border of acceptance, but still it can be given the lowest E.

Result of defence: good (E)
