

## ABSTRACT

The diploma thesis introduces the 5th grade students to the history of the place that is located in the area close to the school. With the help of the project, and therefore their own research, the pupils will discover the period of the 19th century through the life and work of Karel Jaromír Erben.

Since the school is located near the Olšan Cemetery in Prague, the beginning and the end of the project are at these cemeteries, where K. J. Erben is buried.

The work is divided into two parts. In the theoretical part, will be presented information about the situation in the 19th century. How Czechs and other nationalities lived before and after 1848. The work focuses on the important patriot Karel Jaromír Erben, who lived in the mentioned times and his work, which is still known to the general public. At the same time, the work also focuses on the pupil and the goals that are based on the RVP. The knowledge gained from the theoretical part will serve as the basis for the practical part.

In the practical part, the work is directly focused on a specific project. Its plan, implementation, evaluation, reflection and self-reflection.
