Branch of study: Physiotherapy - taught in English for self financing students

Study ID: 647391

Title of the thesis: A Case Study of Physiotherapy Treatment on a Patient After Liver Transplantation

Thesis department: Department of Physiotherapy (51-300400)

Language of the thesis: English

Language of defence: English

Advisor: Mgr. Ilona Kučerová

Reviewer(s): PhDr. Helena Vomáčková, Ph.D.

Date of defence: 15.01.2024 **Venue of defence:** Praha

Attempt: regular

Course of defence: The student presented to the committee the objectives, methodological procedures and results of her bachelor thesis, in which she prepared a case study of a patient after liver transplantation. After the presentation, due to the absence of both the thesis supervisor and the opponent, the reports were read in full. Subsequently, the student had the opportunity to comment on both reports. In the next part of the defence, there was an open discussion, where the committee members asked the following questions, which the student answered. Pavlu - (1) question on reflex changes, (2) question on Barthel index Kohlikova - (1) discussion and questions on the underlying disease - liver cirrhosis, (2) question on breathing problems and also discussion on postural changes in the presented patient; (3) question and discussion on the effect of obesity in the presented patient. The last part of the defense was a closed discussion in which the committee evaluated the presentation, the student's ability to discuss and respond to the questions asked and concluded the defense with an overall rating of excellent.

Result of defence: excellent (1)

Chair of the board: doc. PaedDr. Dagmar Pavlů, CSc.

Committee members: doc. MUDr. Eva Kohlíková, CSc.

MUDr. Simona Majorová
