Course of defence: The student explained the motivation behind his thesis and research question satisfactorily. However, there is room for improvement in terms of timing during the presentation, as the student struggled to finish on time. As a result, the methods and, more importantly, the results of the thesis were only briefly discussed. The student struggled to address the questions the opponent and the committee raised. The committee reflected on the student's performance during the defense and agreed on a grade of E.
