

## **Abstract**

**Title:** Potential impact of financial rules on the economic behaviour of LaLiga and Premier League clubs in the transfer market

**Objectives:** The aim of this thesis is to evaluate the potential impact of FFP rules on the economic behaviour of Spanish LaLiga and English Premier League clubs in the transfer market.

**Methods:** Qualitative methods are used in this paper, namely in-depth document analysis and comparison of documents and financial ratios. Furthermore, the Chow test was performed.

**Results:** The research concluded that the FFP rules have a positive impact on the economic behaviour of Spanish LaLiga and English Premier League clubs in the transfer market in terms of their financial sustainability.

**Keywords:** financial rules, Financial Fair Play, LaLiga, Premier League, transfer market
