

## **ABSTRACT**

- Thema works:** The ratio of won and lost hits and their influence on the result of the match in floorball Superleague
- Student:** Bc. Filip Geisler
- Supervisor:** Mgr. Michaela Běhanová
- Aims:** The aim of my work is to try to find out if the ratio of won and lost hits has an influence on the final result between the Superleague floorball teams. I will also watch the ratio of hits performed according to the rules and against the rules, which is also related to the level of physical condition of a particular team. I will compare the results and try to find out if hits have an effect on the final result of the match.
- Methodology:** I will use the quantitative method of observation for the research. I will watch ten floorball matches from first Czech floorball league and I will focus on hits. The ratio of won and lost hits and the ratio of hits made according to the rules and against the rules.
- Results:** I will establish hypotheses that I will reject or not reject in the results of the work.
- Key words:** floorball, sport, hits, match, ratio
