

## **Abstract**

**Title: Analysis of the Structure of Athletic Competitions for Category of Young Juniors in Individual Regions**

**The aim of this bachelor's thesis:** The aim of this bachelor's thesis is to analyze and compare the structure of athletic competitions for younger pupils (in the age category 12-13 years) in selected regions, excluding school competitions, and to find out which formats and disciplines are most frequently used and why.

### **Annotation**

The subject of this bachelor's thesis is the analysis of the current state of athletic competitions for young juniors. Another part of the thesis provides an overview of the athletic competitions organized in individual regions and proposes potential improvements to the competition structure.

**Keywords: Disciplines, Regional Competitions, Athletic Association, Young juniors, Organization**
