Course of the examination:

The student presented the thesis to the committee in a very structured way, outlining the research questions, methods used, the main results, and their implications.

First, the committee summarized the advisor's and opponent's reports. The student was able to effectively answer all questions raised in the reports.

The committee asked about the assumptions of the t-test and whether these assumptions were fulfilled in the thesis.

The committee appreciated the excellent quality of both the thesis and the presentation and decided on grade A.

Result of defence: excellent (A)
