

Abstract

The bachelor thesis *Conflict of Interest in the Czech Politics and its Possible Solution* deals with the analysis of conflict of interest among members of the government in the years 2018–2023. The subject of the research is what members of the government were in conflict of interest in 2018–2023, what their conflict of interest consisted of, what kind of conflict of interest it was, what approach according to the division of Davis and Stark¹ individual members of the government dealt with these conflicts of interest. Finally, the thesis provides a comprehensive view of conflicts of interest in Czech top politics and offers recommendations for improving standards in the political environment.
