

Abstract:

Expectations of a social worker of social and legal protection from the relationship with a supervisor.

Rigorous thesis focuses on the relationship between a social worker of social and legal protection of children and a supervisor in the conditions of the field of social work, social and legal protection of children, in the context of recommendations in Quality Standard 6d.

The main goal is to map the expectations of a social worker of social and legal protection in the relationship with a supervisor. It also deals with the criteria that influence the supervisory relationship from the point of view of social workers of social and legal protection. A partial goal is to analyze how expectations determine the process of supervision by a social worker in the context of Standard 6d.

A qualitative research strategy was chosen as part of the empirical investigation. The method of thematic analysis based on semi-structured interviews was used. This approach enables an in-depth examination of the experiences of the interviewed respondents.

The application goal of the empirical investigation was the formulation of recommendations for the implementation of supervision within the framework of social and legal protection in the selection of a supervisor and cooperation on a supervision assignment. The information obtained can also contribute to the opening of a professional discussion on the topic of the supervisor's specialization in social work, namely the supervisor-social worker.

Keywords: social work, social legal protection, social worker of social legal protection, quality standards of social legal protection, supervision, supervisor of social legal protection.
