

Abstract

Mgr. et Mgr. Adam SÝKORA: *Missale Posoniense I.* – diplomatic edition (rigorous thesis), Charles University in Prague, Faculty of Catholic Theology, 2011.

In the present thesis the author provides a diplomatic edition of one of the oldest collegial missals of Bratislava Chapter House: *Missale Posoniense I.* It is a central source of European significance, which is pattern normative and representative in relation to the similar landmarks (eg *Missale Posoniense A, B, C, II., III., IV.*), and which was used in the Bratislava Chapter House before 1341st. The text of this Missal was previously published only in facsimile form, which bears the technical limitations of the period of its creation. Since that time, other foils have been discovered that have not been published at all. Professional public now has the text, with which can work effectively, moreover, it paves the way for a critical edition of the full text of the preserved parts, which the author intends to publish as dissertation.

Keywords: Roman Missal, *Missale Romanum*, *Missale Posoniense I.*, Bratislava Missal I., *Missale Bratislaviense I.* (sic), *Missale notatum Strigoniense*, Ordinary, proprium, diplomatic edition.
