

Abstract

Title: Financing of disabled sportsmen in the Czech Republic

Objectives: The main objective of this study is to examine ways of financing disabled sportsmen in the Czech Republic

Methods: For the purpose of the study the data was gathered in a poll. Open-end questions were sent via email. The poll was focus on the problematic parts of the system of financing. Open end questions complemented the poll directed at sportsmen themselves.

Results: The results of the study showed that financing of disabled sportsmen in the Czech Republic is not sufficient. Attitudes and opinions of respondents were similar to a large extent. Based on gathered data and information the financing cannot be claimed systematic. It has also been undergoing constant changes.
