

The bachelor thesis „Respite care and its specifics in foreign centre Revitalise Jubilee Lodge“ deals with respite care which belongs to the social work. The aim of the thesis is to describe respite care and specifics of these services at foreign centre Revitalise Jubilee Lodge based on my own personal experiences. The theoretical part puts respite care in context of the social services system, dealing with the history and the very definition of this service. The following part of this thesis is about the models of respite care and explanation of the term ‘short breaks’. The end of the theoretical part aims to define the key figure of respite care and description of their needs. The practical part focuses on the description of the foreign centre Revitalise Jubilee Lodge and its specifics of the respite care.
