

The main aim of this work was to make acquainted the reader with the creation of man, as we can read it in the first two chapters of the Bible. "The stories of creation", which I was interested in, we can exactly find in the book of Genesis: Gn I, 26-31; Gn 2, 4-9; Gn 2, 18-25. I specialized in the Christian look at the creation of man, but I was also trying to find some contexts and similarities with the Jewish tradition, the Old Oriental tradition, as well as with the various opinions of famous personalities. This work has just theoretical character.
